## **Carrabba's Italian Grill Top 9 Allergens**

Carrabba's Italian Grill is committed to providing our guests with the highest quality food and service. Our allergen information is based on information provided by our approved vendors. Due to product substitutions and recipe changes, we cannot guarantee that the allergen information listed will be the same at the time of your dining experience. All of our menu items are made to order. Deep fried items are fried in a shared fryer sothere is high risk of cross contact. We do not recommend that guests with allergies order fried foods. Soybean oil is not labeled as a soy allergen per FDA allergen labeling guidelines. Though efforts are made to minimize risk, a risk for allergen cross contact exists; during normal cooking operations food may come into contact with allergen containing ingredients. Please ask to speak with the manager on duty to inform them of your allergies.

Created: August 2024
